BIOGRAPHY OF BLADER SKATES GHANA

Well, just like they have always been doing, one busy day after attending almost 13 credit hours including laboratory practical sessions, stress got them. These guys started discussing what they could do to release stress during the weekend aside going to Da Breeze, Summrit, jogging, tennis, pool parties etc and they came across some uncommon activities; these are thinkers we have here.

These undergraduate students of University of Cape Coast (Mensah Ababio Bright, Johnson Kwame Sefa) and some other friends took this topic at heart to discussed these activities and how possible they would get the necessary equipment to start something of a recreational centre of a sort. After further discussion, concluded on establishing BLADER SKATES GHANA and BLADER SURF GHANA.

In 2019, BLADER SKATES PROFESSIONALS – UCC, GHANA was established and started training persons who are new to roller sports skateboarding, inline skates and quad roller skates boots. You might be wondering where BLADER SURF GHANA is, did it work, where they are located, how many people were able to join ?. Now, it is located in our minds because we could get the equipment and the expertise to start the surfing club.

These clubs were purposely going to be introduced to the university community, cape coast and later to everyone in Ghana and now we have close to 100people showing interest, about 70people ready to buy skate boots and skateboard and over 20 regular members of the our dear club.

Our aim is to develop the skating community in Ghana to be much more interesting to people of Ghana and use this opportunity to

decrease the level of depression, maintain the good health of the people, socialization and also create a new avenue in sports and recreation. The club look forward to organizing competition from the club level to international level in it sporting activities annual or three times each year. This will include inline hockey, rollball, speed skating, slalom and freestyle skating. Tourism is one sector BLADER SKATES GHANA will also be developing alongside sports, fun, and recreation. Our annual skate trips in Ghana and around the world is one thing that will also help develop the tourism in Ghana because we see skate as a culture, and each country and states has it skate culture and it way of doing

things. Therefore the idea of skate trips is to create a cultural harmony and cultural exchange.

When all of these things are achieved then we start including these recreational centers in the planning of communities and real estates. Join BLADER SKATES GHANA NOW!

Dreams to become a well know Figure Skater

Photographers Credits: Mrs. Alma C Ramnanan

Since I was four years old, I've been acting on stage. I've always had an interest in hockey, but I knew that it took great skill and that most of the players had been playing since they could walk. I attended my best friends hockey games and I just knew I wanted to give it a shot. After having the lead role in a big production, I decided to take a break from acting for a while and hit the ice. I got geared up, did some lessons and trained with some amazing coaches. I then tried out for the Junior Everblades travel 12U team. I didn't hear back. About three weeks later I was asked to be a "practice player" on the team. I graciously accepted. I didn't give up. My parents supported me every step of the way. I was also on the rec team and was out there every night practicing. Whether a private lesson, stick and puck or practice with my rec. team, I was determined and I showed up. I was still a bit shaky on skates, but I attended some extra classes and clinics to become a better skater. I will never forget my first

goal during my rec game. It was an amazing feeling and I felt unstoppable after that. The very next evening I got a text from my coach asking me to be a "regular player" on the upcoming travel team. I was beyond excited and ready to begin the season. Since the season started a few weeks ago, I've already had over 10 assists and even more goals. I consider myself lucky to have made the team with only have played hockey for less than a year. I can see my hard work is paying off and I'm not stopping here. I am so thankful for my coaches patience and persistence. I am even more grateful for my parents and family for sticking with me and believing in me. Once my skates hit the ice, I knew this was where I belong. This has been a dream come true for me. My team is the absolute best. I love this sport and hope to continue playing throughout the years.

There's nothing better than listening to your favorite music with the wind in your hair as you roll down the street in your neighborhood, or around your local skating rink. The quintessential question, "Do you prefer roller-skates or rollerblades?" Much of my childhood was spent with my younger two younger siblings at our local Skateland in Omaha, Nebraska. We couldn't wait to tie up our laces, or snap our buckle after we'd gotten our footgear as tight as we possibly could with our tiny little hands! We would spend ten-twelve hours a day five days a week playing arcade games, eating pretzels with nacho cheese, drinking soda, dancing to the "Cha Cha Slide," and becoming avid skaters. Our single mom worked very long days in order to care for us, and to pay for our day camp each summer. Together, we cherish our memories there. Today, you can catch 2/3 of us still skating!

Mathéo put on his first skates at the age of 2 1/2 and started hockey at the age of 7. In a short time, he became the best player on his team and he won many honors. His strength of character and his great determination to learn are two of his main qualities. Mathéo dreams of finding the coach who will see in him the talent he has and who fully believes in his potential for future high-level hockey. For the past two years, this 10-year-old boy has been cut off from the elite teams he dreams of playing with. With resilience, he promises to continue improving to one day get to be part of the elite teams. He's not afraid of the cold and every night he can, he goes to the neighborhood rink to have fun at one of his favorite sports: hockey.

I have been playing hockey since I was 4 years old, I play both ice hockey and ball/dek hockey. I am looking forward to my first year of Varsity high school hockey playing for Bishop McCort Catholic High School. I hope you eventually play hockey in college and obtain a degree in Engineering. I would also love to play in the Olympics for the USA.

I started skating in Melbourne Australia as a teen and trained a lot I eventually moved to Alaska. I quit competitive skating and training after injuries and coached a little as well.

With age my goals changed from ice shows to finding the most beautiful places in Alaska to skate on wether that's involves long wintery hikes, snow machining in the wilderness, climbing on top of glaciers and barely thick enough lakes. The best ice I've ever found is on top of a glacier better than any zamboni!.

I love skating outside and improving to music where the only spectators might be moose and my dog.

My Instagram is @Alaska_ice_queen
